ABOUT THE PEUAT

The Special Tourist Accommodation Plan (PEUAT) regulates the introduction of tourist-accommodation establishments, as well as youth hostels, tourist apartments and shared homes.

This regulation is in response to the need for reconciling the city’s tourist accommodation with a sustainable urban model based on guaranteeing the basic rights of local residents and improving their quality of life.

In addition to the offer for tourists, the plan also aims to regulate temporary stays in short term student residences in the area. The Full Council gave its final approval to the text for the new Plan on Tourist Accommodation on 23 December 2021. The plan came into force on 26 January 2022, once it was published in the BOPB.

AN INSTRUMENT FOR MANAGING HUTS

Apartments for tourist use (HUTs) are flats that owners repeatedly let for seasonal stays, directly or indirectly, to third parties in exchange for financial compensation.

The PEUAT establishes zero growth for HUTs throughout the city.

Therefore, in order to avoid excessive numbers and guarantee a balanced territorial distribution, when a HUT ceases its activity in a saturated area, a new licence will be permitted or the redistribution of the contained-growth area.

Evolution of the number of HUTs, 2005–2021

The new approved document also regulates the category of shared homes. The Government of Catalonia created this new category for renting tourist rooms in habitual dwellings with [Decree 75/2020 on Tourism](#), which was published on 6 August 2020. It provides for rental stays that do not exceed 31 days, with a maximum of 4 places per flat. It requires that the person applying for authorisation must live in the dwelling concerned.

THE AREAS

Apart from common conditions across the city, the PEUAT distinguishes between four specific zones, each with its own regulations. Each one is characterised by the distribution of tourist accommodation in its territory, the ratio between the number of available tourist places and the current resident population, the scope and conditions under which certain uses are provided, the impact of these activities on public areas, the presence of tourist attractions and the morphological characteristics of the area's urban fabric.

	AREA 1	AREA 2	AREA 3	AREA 4
Tourist-use flats (HUTs)	5.274 32.962 places	3.134 18.995 places	1.016 5.699 places	10 42 places
Tourist accommodation establishments (hotels, apartment hotels, hostels or guest houses, tourist apartments)	559 52.875 places	139 21.653 places	65 8.504 places	3 1.156 places
Youth hostels	83 7.211 places	30 1.629 places	15 1.792 places	0 0 places
Tourist accommodation / tourist places	5.916 93.048 places	3.303 42.277 places	1.096 15.995 places	13 1.198 places

	AREA 1	AREA 2	AREA 3	AREA 4
Short term student residences in the area	29 2.966 places	16 3.149 places	31 6.471 places	6 1.979 places

WHY HAS THIS BEEN DONE?

TO EASE THE PRESSURE OF TOURISM

To ease pressure on those areas of the city most affected by tourism.

IN RESPONSE TO PUBLIC DEMAND

As a response to public concern and disquiet regarding the effects of tourism, bearing in mind the disproportionate, unplanned and uncontrolled increase in tourist accommodation in the city.

BALANCE

To seek the urban balance and diversification which ensure that tourism activities, and especially tourist accommodation, attain sustainability with regard to other economic activities.

GUARANTEEING THE RIGHT TO HOUSING

To guarantee local residents' right to housing (no type of tourist accommodation may replace a dwelling), rest, privacy and well-being, as well as spatial quality.

A BARCELONA FOR EVERYONE

THE PURPOSE OF THE PEUAT IS TO IMPROVE THE QUALITY OF LIFE OF BARCELONA'S RESIDENTS AND TO BUILD:

A CITY FOR LIVING IN

Which guarantees quality of life for Barcelona residents and conserves people's right to housing, rest and privacy, the right to sustainable mobility and a healthy environment.

A CITY CAPABLE OF MAINTAINING THE QUALITY OF ITS PUBLIC SPACES

Identifying the most sensitive areas where there is already an intensive use of public space, due to the presence of one of the city's main tourist attractions or because of the concentration of street-level shops and services.

A CITY WITH A BALANCED MIX OF USES

Where urban diversity, different uses and a variety of economic activities can exist side by side without generating conflicts while guaranteeing the well-being of residents.

A CITY WITH MORPHOLOGICALLY DIVERSIFIED URBAN FABRICS

Where the size and number of tourist establishments are set according to the characteristics of the urban area concerned.
