Housing for tourist use

[Company Channel](#)

These are those homes whose owner transfers them in their entirety to third parties, directly or indirectly, in exchange for a price and for continuous periods of time equal to or less than 31 days. The owner is obliged to communicate their tourist use to the town hall of the municipality where they are located, always taking into account that the destination for this use must be compatible with the regulation of uses where they are located. The Generalitat will register them in the Tourism Register once the town hall has communicated the details of the activity's authorisation.
